AXEL APAZA SALAZAR

PROJECT / PRODUCT MANAGEMENT | SOFTWARE ENGINEERING | QA & SYSTEMS DESIGN

Buenos Aires, Argentina | axelinformaticafiuba@gmail.com | 1135959988 | www.linkedin.com/in/axelapaza | github.com/Akselas

PROFESSIONAL SUMMARY

Software-focused Project Manager with a career progression from housing operations to software delivery. Experienced in requirements discovery, functional analysis, product documentation, cross-functional coordination, and hands-on manual QA for web and mobile applications. Skilled at translating real operational workflows into clear product specifications and implementation-ready Jira stories. Software Engineering student at the University of Buenos Aires, with an expected graduation in 2027.

PROFESSIONAL EXPERIENCE

Project Manager | Software Development Department *March 2025 – Present*

Gilson Housing Partners | Project Manager / Technical Business Analyst

- Translate complex business logic and compliance rules into actionable product requirements, comprehensive user stories, and clear technical specifications.
- Lead end-to-end release cycles, managing sprint planning, feature documentation, and the creation of end-user guides for successful deployment.
- Act as the primary bridge between executive stakeholders and development teams, negotiating technical scope and proactively unblocking the team to keep up with the desired velocity.
- Drive cross-functional workflows utilizing Jira, Confluence, Agile/Scrum, and Waterfall methodologies.

Recertification Team Leader | Operations *December 2023 – March 2025*

Gilson Housing Partners

- Coordinated recertification operations and supported team execution, helping maintain consistent workflows and timely handling of annual and interim recertifications.
- Gained initial team leadership experience by coordinating team activities, participating in client meetings, addressing questions and concerns, and managing client requests in conversational English.

Recertification Specialist | Operations *June 2023 – December 2023*

Gilson Housing Partners

- Processed annual and interim recertifications, audited tenant documentation, and worked with housing-management systems such as Yardi and Elite.

EDUCATION

Software Engineering (Ingeniería Informática) — 5th-Year Student *Expected 2027*

University of Buenos Aires (Universidad de Buenos Aires, UBA)

- Relevant coursework: SOLID practices, algorithm analysis, UX/UI best practices and distributed systems design.

TECHNICAL SKILLS

Product & Project Management: Product lifecycle support, requirements elicitation, PRDs, functional analysis, user stories, user flows, workflow diagrams, cross-functional coordination.

Quality Assurance: Manual testing, functional and regression testing, bug reporting, web and iOS/mobile QA, TestFlight.

Programming & Development: Rust, Python for scripting, SQL, MongoDB, Firebase.

Tools & Platforms: Jira, Confluence, Git, Figma, Microsoft Excel.

Domain Knowledge: Housing inspection standards (HQS, NSPIRE), recertification workflows, housing operations.

Languages: Spanish (Native); English (C2).
